Subject: Application for the Position of QA Engineer

Dear Sir/Madam,

I am writing to apply for the position of QA Engineer at [Company Name]. I am a QA Tester and Flow Analyst with experience in end-to-end testing, user flow testing, and business logic validation across web, Android, and iOS applications, and I would be glad to contribute this experience to your team.

In my current role at Wizcoder AI Labs, I have tested client-based and product-based projects, including a UTM link tracking platform, a blog manager, super admin panels, and a real estate platform. My work covers functional, regression, smoke, and sanity testing, API testing with Postman and Swagger, and basic database checks using SQL. I report and track defects using ClickUp and Jira. Earlier, at Vasundhara Infotech, I tested native Android and iOS applications and web applications.

I approach testing by first understanding the business purpose of a feature and then following the complete user journey, which helps me identify gaps that are not visible from test cases alone. I am also building my skills in automation testing, with working knowledge of JMeter for API testing and Appium for mobile testing.

I have enclosed my resume for your review and would welcome the opportunity to discuss how my skills can support your quality goals. Thank you for your time and consideration.

Yours faithfully,

Devanshi Gonawala

LETTER 2 · PORTFOLIO

Professional Portfolio – QA Tester and Flow Analyst

Dear Reviewer,

Please find below a brief portfolio of my professional work in software quality assurance. It summarises my role, the projects I have tested, and the skills I apply.

Professional Summary

QA Tester and Flow Analyst focused on end-to-end quality, user flow testing, and business logic validation, with experience in web, Android, iOS, and API testing.

Key Projects

Project	Scope of Testing
LinkUTM (link tracking tool)	Link creation, QR codes, integrations, GA4 connect, templates, payments, analytics, geo targeting, device tracking, and UTM rules
Blog Manager	Permission checks and end-to-end content flows
Super Admin and other panels	Role-based access, functional and regression testing
Real estate, gold directory and jewellery projects	Client-based projects; multiple live websites checked
Mobile Applications (Vasundhara Infotech)	Functional, regression, API, and UI testing of native Android and iOS apps

Skills and Tools

- **Testing:** functional, regression, smoke, sanity, API, user flow, and business logic validation
- **Platforms:** Web, Android, and iOS
- **Tools:** Postman, Swagger, JMeter, Appium, Jira, ClickUp, Git, basic SQL

A detailed project walkthrough and my resume are available on request. Thank you for reviewing my work.

Sincerely,

Devanshi Gonawala

To Whom It May Concern

Subject: Letter of Recommendation for Devanshi Gonawala

Dear Sir/Madam,

I am pleased to recommend Devanshi Gonawala, who worked as a QA Tester and Flow Analyst at Wizcoder AI Labs from December 2025 to August 2026, and whose work I observed during this period.

Devanshi tested a wide range of web and mobile projects with great care. She understood the business purpose behind each feature and verified complete user flows, which helped the team find issues early. She reported defects clearly, with steps to reproduce and expected results, and she retested fixes carefully before sign-off.

She is dependable, communicates well with developers and project teams, and is always willing to learn new tools and methods. I am confident she will be a valuable addition to any organisation, and I recommend her without reservation.

Please feel free to contact me for any further information.

Yours sincerely,

[Recommender's Name]

Subject: Letter of Interest – QA and Testing Opportunities

Dear Sir/Madam,

I am writing to express my interest in joining [Company Name] in a quality assurance or testing role, should a suitable opening be available now or in the future. I have followed your organisation's work and admire the quality of the products you deliver.

I am a QA Tester and Flow Analyst with hands-on experience in web, Android, iOS, and API testing. I have tested client-based and product-based projects, and I focus on end-to-end user flows and business logic so that products work as users expect.

I would welcome the chance to share my resume and discuss how I can contribute to your team. Thank you for considering my interest, and I look forward to hearing from you.

Yours faithfully,

Devanshi Gonawala

LETTER 6 · FOLLOW-UP LETTER (AFTER THE INTERVIEW)

[Designation]
[Company Name]

Subject: Thank You and Follow-Up – QA Engineer Interview

Dear [Interviewer's Name],

Thank you for taking the time to interview me on [Interview Date] for the position of QA Engineer. It was a pleasure to learn more about the team and the projects you are working on.

Our discussion strengthened my interest in the role. I believe my experience in end-to-end testing, API testing, and user flow validation matches the requirements you described, and I am keen to contribute to your quality processes.

If you need any further information from me, I will be happy to provide it. I look forward to hearing about the next steps and thank you again for your time and consideration.

Yours sincerely,

Devanshi Gonawala

LETTER 7 · ACCEPTANCE LETTER (AFTER RECEIVING A JOB OFFER)

Subject: Response to Job Offer – QA Engineer

Dear [Hiring Manager's Name],

Thank you for offering me the position of QA Engineer at [Company Name] and for the time you and your team spent with me during the selection process.

After careful consideration, I have decided not to accept the offer at this time, as it does not align with my current career plans. This was not an easy decision, as I was impressed by your team and the work you do.

I sincerely appreciate your confidence in me and wish you and the company continued success. I hope our paths may cross again in the future.

Yours sincerely,

Devanshi Gonawala

LETTER 9 · LEAVE-OF-ABSENCE REQUEST LETTER

Wizcoder AI Labs

Subject: Resignation from the Position of QA Tester and Flow Analyst

Dear [Manager's Name],

Please accept this letter as formal notice of my resignation from the position of QA Tester and Flow Analyst at Wizcoder AI Labs. In line with the notice period, my last working day will be [Last Working Day].

I am grateful for the opportunity to work on diverse web and mobile projects and for the guidance and support of the team. The experience has helped me grow both professionally and personally.

During my notice period, I will complete pending tasks and hand over all testing documentation and open issues to ensure a smooth transition. Please let me know if I can help in any other way.

Thank you once again for your support, and I wish the company continued success.

Yours sincerely,

Devanshi Gonawala
